Week 6: OUTPUT PROGRESS
This week, I completed the ticketing system's functionality, upgraded the UI for a cleaner look, and added advanced features like file attachments, synced messaging, and faster system performance.

Week 6: DAILY REPORT		
Day	Tasks/Activities	Problems Encountered / Solutions Applied
February 23, 2026 (Monday)	I finished all the main features for the ticketing system.	N/A
February 24, 202 (Tuesday)	I redesigned the ticket UI to make it look cleaner and more professional.	The layout was too crowded; I simplified the design and improved

February 25, 2026 (Wednesday)	I added file attachments for chats and a storage area for media, files, and links.	N/A
February 26, 2026 (Thursday)	I added a copy-paste feature for files and made sure chats stay synced between admins and users.	The chat was not updating correctly for both users; I fixed the sync logic so messages appear instantly.
February 27, 2026 (Friday)	I cleaned up the code to make it shorter and help the app run faster.	Some parts of the code were repetitive and slow; I refactored them to improve response speed.
